

APT360°
Experience Reliability

HOUSING SOCIETY MANAGEMENT SOFTWARE

ABOUT US

We are a group of engineers well informed with all intricacies of real estate trade in its entirety and requirements. We did not want an instant process lacking in substance. For us, it is not about a product we can sell, but about a passion for creating quality services in which we can take pride—something we will all be honoured to put our names on. Again, we merged over a cup of joe to refine our processes, and then we set to work creating a one-of-a-kind service tailored to the needs of the real estate industry

APT360° is a Product of Cucor Consulting, multi-office, boutique property management services established in year 2016. With our unique present- day style and total sentiment for connecting people with property, we yearn to provide the ultimate real estate experience for today's modern consumer. We are not confined by traditional real estate boundaries when it comes to Asset management, Facility Management, Sale Management and Construction instead we are always finding new and innovative ways to satisfy our clients' needs and be at the forefront of the Indian property market.
